

"My Instructor told me to always believe in myself, that I could do anything I set my mind to. I will never forget her encouraging words." ● "It is an unbelievable feeling to be with a woman in labor for hours, coaching her, encouraging her, and when the baby finally arrives to be one of the few people to see this new life brought into the world." ● "It is special to know patients truly value my care and concern." ● "The most special moment was taking care of a two-year-old little girl with a chronic illness. It meant a lot when she would smile at me even though she was in pain." ● "I realized that I was more than a young student nurse with hopes and ideals, that medical intervention is only one part of providing quality medical care." ● "After assisting in a delivery, the baby was put in my arms to be taken to the warmer. The nurse had me assess the newborn and cut the cord . . . and then she looked at me and said "Well, you did an excellent job. You and your instructor should be proud." At that moment I felt very proud to be from the Charlotte - Mecklenburg Hospital Authority School of Nursing."

## DEDICATION

*It is with sincere thanks that we dedicate this annual to the faculty of The Charlotte-Mecklenburg Hospital Authority School of Nursing.*

*Without their willingness to impart knowledge, promote growth and emphasize professionalism, we would graduate without a realistic sense of the entirety of the Nursing profession and what our roles truly are.*

*Their hard work and dedication are greatly appreciated.*

*"During OB Rotation, I helped coach my patient through one and a half hours of pushing. She had a C-Section previously and wasn't sure she could do it. Later she told me, "Everytime I looked at your face I knew I had to keep trying." She thanked me for the encouragement that made her feel that she could do it."*
